

ABOUT GUJARAT FLUOROCHEMICALS LTD

Gujarat Fluorochemicals Limited (GFL) is India's leading producer of fluoropolymers, fluorochemicals and battery materials. It is part of the US\$ ~ 18 bn INOXGFL Group which has a legacy of over nine decades and is primarily focused on two business verticals - chemicals and renewable energy. GFL has three manufacturing units in Gujarat, including one of the world's most integrated facilities at Dahej, and a captive Fluorspar mine in Morocco. The company has a global reach with offices and warehouses in Europe, USA and Middle East. GFL is the largest producer of fluoropolymers in India and amongst the top few globally, with fully integrated manufacturing facilities.
