

PRESS RELEASE

Inox Wind secures a repeat 100 MW order from Jakson Green

- **Receives order for supply of 100 MW with limited scope EPC from Jakson Green**
- **Multi-year post commissioning O&M services to be part of the contract**

Noida, December 16, 2025: Inox Wind Limited (IWL), India's leading wind energy solutions provider, today announced that it has secured a repeat order from Jakson Green Ltd. (Jakson) for 100 MW, following the 100 MW order recently won from the same customer. This order is for the supply of IWL's 3.3 MW turbines for the projects being developed by Jakson in Gujarat. Additionally, IWL will provide limited scope EPC for the project as well as multi-year operations & maintenance (O&M) services post the commissioning of the turbines. With the addition of this order, total order inflow for FY26 now stands at ~ 600 MW, with an additional 2.5 GW of framework agreement to be executed over the next three years. Large annual orders from Inox Clean provide additional order inflow visibility.

Speaking on this occasion, **Mr. Kannan Krishnan, Managing Director, Jakson Green**, stated, "At Jakson Green, we are diversifying our green energy portfolio and are committed to accelerating India's transition to a sustainable future. Building on our proven expertise in utility-scale solar, we see strong synergies in our collaboration with Inox Wind as we step into large-scale wind power projects. Together, we aim to play a constructive role in advancing India's energy transition."

Mr. Sanjeev Agarwal, CEO, Inox Wind Ltd added, "We are delighted to have received a repeat order from Jakson Green for 100 MW, taking our total order intake from Jakson to 200 MW. Jakson has ambitious plans in the renewables space and has forayed into the wind power generation segment. We are pleased to engage with them in their initial stages and are confident of a long term and mutually beneficial relationship with them. Our relationships with new customers start with smaller orders, maturing into repetitive large orders. We continue to progress on closing multiple other orders which will provide a strong revenue visibility for at least the next two years."

ABOUT JAKSON GREEN:

Jakson Green Limited is a global new energy transition platform backed by the 78+ year legacy of the Jakson Group in power and energy infrastructure.

With a strong presence across India and international operations spanning the Middle East, Europe, Africa and the CIS region, the company is driving large-scale transformation in the

renewable energy landscape. Jakson Green's integrated capabilities span EPC, IPP, BOO, and O&M services across solar, wind, green hydrogen, green ammonia, and bioenergy domains.

Guided by its mission to accelerate the global shift toward sustainable energy, the company partners with corporations, utilities, and governments to deliver cutting-edge clean energy solutions. Founded in 2022, the company is actively expanding into the green molecules and bioenergy space. Leveraging its deep domain expertise, its subsidiary, Jakson Infinity, boasts a 300 MW electrolyser manufacturing capacity.

As part of its growth strategy, Jakson Green continues to expand into emerging areas such as bioenergy and green mobility, positioning itself among the most forward-looking renewable energy players globally.

ABOUT INOX WIND:

Inox Wind Limited (IWL) is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs & Corporate investors. IWL is a part of the multi-billion-dollar INOXGFL Group which has a legacy of over nine decades and is primarily focused on two business verticals - chemicals and renewable energy. IWL is a fully integrated player in the wind energy market with five state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh, where Blades, Tubular Towers, as well as Hubs & Nacelles are manufactured. With its state-of-the-art 3 MW series WTG offering, IWL's manufacturing capacity stands at ~ 2.5 GW per annum.

IWL's subsidiary, Inox Green Energy Services Ltd., is the only listed pure-play renewable O&M services company in India, having a strong portfolio (including investments) of ~ 13 GW of assets and a multi-fold growth path ahead.

Through its other subsidiary, Inox Renewable Solutions (earlier known as Resco Global Wind Services Pvt. Ltd.), IWL provides EPC services for wind projects and develops common infrastructure, including power evacuation infrastructure, for renewable projects.

IWL offers end-to-end wind energy solutions from concept to commissioning to O&M, manufacturing key components of WTGs, using the most advanced technology, in-house, to maintain high quality, reliability and cost competitiveness. IWL has ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to the manufacturing, installation, commissioning and O&M of wind turbines. With strong promoter backing, healthy balance sheet, robust stakeholder relationships, and bright macro prospects, IWL is embarking on an exciting journey of growth and profitability.
