

About Inox Neo Energies

Inox Neo Energies Ltd. is the Renewable Energy (RE) Independent Power Producer (IPP) platform of the INOXGFL Group and a subsidiary of Inox Clean Energy Ltd. Backed by the INOXGFL Group which has an unparalleled experience of building large businesses, aims to become one of India's premier renewable power generation platforms. Inox Neo is targeting at least 3 GW of installed hybrid RE capacity (solar + wind + BESS) within the next 2-3 years. The power generated from these projects will be sold to other INOXGFL Group companies, third party customers as well as on the power exchanges.
